

Get your butt in here

by Dr. David Gutman,
Advanced Hemorrhoid Specialists

Once the hustle and bustle of family visits, parties and holiday hoopla have died down, I want you to get your butt in here. That's right, I'm talking to you...the person who has waited months or even years to deal with the pain, burning and itch of hemorrhoids. Right now, your attention is where it should be—on enjoying this special time with friends and family.

But if you wait until next year, before you know it you'll have suffered through the winter without putting any of the focus on finding relief for yourself. Why not take a quick minute to make a call that could change everything for you?

Scheduling an appointment with my office takes minutes, and we can get you in right after the parties and visits from friends and relatives have wrapped up.

If you're like most people, your resolution for the New Year includes a renewed determination to get healthy, eat right, and maybe even lose weight. But it's going to be difficult to start on that new path if you're struggling to manage the discomfort of hemorrhoids. Here's

David
Gutman, MD

how I can help.

I offer two, non-surgical methods to treat hemorrhoids. One reduces the blood flow that feeds the hemorrhoids, improving inflammation and causing them to shrink. The other is better suited to removing larger hemorrhoids. Both take

just a few seconds to do. Since they are performed in an area with no nerve endings, they can be administered right in the comfort of my office without anesthesia.

There is virtually no pain, no prep needed, there are no major restrictions, and you don't have to take time off of work. Consultations are free of charge and our procedures are covered by insurance.
