

# The back burner

by Dr. David Gutman,  
*Advanced Hemorrhoid Specialists*

A lot of things have been placed on the back burner—and the heat is on. If hemorrhoids are something you've decided to let simmer, you've probably spent the last several months cooking up a great deal of discomfort in your derriere.

Pain, burning, itching, bleeding, and an inability to get clean have likely been part of the recipe for your hemorrhoidal disaster.

It's time to turn down the flame of discomfort and let the healing begin.

One of the practices I've implemented over the past year is a free virtual consultation. It's a perfect way to get started on the path toward eliminating hemorrhoid discomfort once and for all.

We'll have a quick chat on the phone or via Zoom, then you'll come in for an exam. The consultation takes just 10 minutes and when you visit the office you can feel confident that we're strictly following all safety precautions.

the forefront, here's how I can help.

I offer two methods to treat hemorrhoids. One reduces the blood flow that feeds the hemorrhoids, improving inflammation and causing them to shrink. The other is better suited to removing larger hemorrhoids. Both take just a few seconds to do. Since they are performed in an area with no nerve endings, they can be administered right in the comfort of my office without anesthesia.

There is virtually no pain, no prep needed, there are no major restrictions, and you don't have to take time off of work. Consultations are free of charge, and our procedures are covered by insurance.
