

Your secret is out

by Dr. David Gutman,
Advanced Hemorrhoid Specialists

The secret you've been keeping all winter is finally out...in the yard, at social events, on the golf course, and at the grocery store. Everywhere you go, your hemorrhoids go with you.

During the winter months, when you were hunkered down indoors, it was easier to keep your secret under wraps.

Maybe you've been hiding your secret for years, navigating many different seasons trying to keep it quiet. But now that you're "out there" once again, so are your hemorrhoids. The bleeding reveals itself as a spot on your pants, and the itching and burning can't be contained.

Hemorrhoids shouldn't be kept a secret. It's a medical issue, and it doesn't need to be embarrassing to correct. It's time to expose your secret to treatment. And if you've been hiding your problem because you're afraid of painful surgery, you'll be relieved to know that the non-surgical treatments available today are amazingly quick and virtually painless.

David
Gutman, MD

I have two treatments designed to safely eliminate hemorrhoids. One reduces the blood flow that feeds the hemorrhoids, improving inflammation and causing them to shrink. The other is better suited to removing larger hemorrhoids. Both take just a few seconds to do.

Since they are performed in an area with no nerve endings, they can be administered right in the comfort of my office without anesthesia.

There is virtually no pain, no prep needed, there are no major restrictions, and you don't have to take time off of work. Consultations are free of charge, and our procedures are covered by insurance.
